1. The prison in Leopoldov* was evacuated in October 1951. Male prisoners were transferred to the prison in Ilava (P49/T69). Female prisoners were transferred to a jail in southern Slovakia. The Leopoldov prison was required by the StB. The capacity of this prison is normally about 2,000 men, but in an emergency can be increased to 4,000 to 6,000.
2. The StB also required evacuation of the prison in Ruzomberok (Q50/C99)...It is not known whether this prison was needed by the StB in addition to the prison in Leopoldov.
